

Patient deterioration New Zealand

Current state and future developments

WHEN

29-30 November 2018

WHERE

The Holiday Inn, Auckland Airport

If you are involved in providing acute care in New Zealand hospitals, this conference is for you. Register at: <https://hqsc.eventsair.com/pdnz2018/register>.

Hosted by the Health Quality & Safety Commission and the Australia New Zealand Intensive Care Society (ANZICS), this two-day conference explores patient deterioration in the New Zealand context. Keynote speakers include:

Associate Professor Daryl Jones, a leader in implementing and researching recognition and response systems in Australia

Dr Alex Psirides, clinical lead for the Commission's patient deterioration programme.

On day one, hear from clinicians and consumers about innovations and challenges for recognition and response systems and escalation of care processes, take part in a communication or resilience skills development session, and then join your fellow attendees at the networking function. On day two, discover what is happening in New Zealand and Australian recognition and response systems, learn about shared goals of care, data collection and analysis, and participate in panel discussions.

Sponsorship and exhibition opportunities

There are several sponsorship and exhibition options available, including financial sponsorship, hospitality opportunities and exhibition sponsorship. [Contact the events team](#) to discuss these opportunities further.

More information is available at <http://bit.ly/pdnz2018>. For all queries, please contact events@hqsc.govt.nz.
