

# I HAVE A DREAM!

- That there will be a nationwide funded IPC IT system that is fully integrated with local IT systems.
- That the most up to date IT products and solutions are used to collect data eg paperless and wireless.
- That there will be greater recognition of the importance of IPC in ALL facets of healthcare, including the community, and adequate funding to provide it.
- That it will no longer be necessary to audit Hand Hygiene
- That IPC education is fully integrated into all healthcare related professions
