IHI Collaborative Model for achieving Breakthrough Improvement

Supports: emails / visits / reports / sponsors / meetings / assessments , webinars, teleconferences,

Model for Improvement

Unlocking relationships between CLAB prevention and collaboratives

- The underpinning philosophy of the collaborative
- Isomorphic pressures
- Develop 'organic' networks
- Reframes a social problem
- Uses data as a disciplinary force

The underpinning philosophy of collaboratives

- It is the philosophy of the collaborative
 - Different units have different starting points
 - Quality Improvement is non-linear and the guiding principals change as you go along.

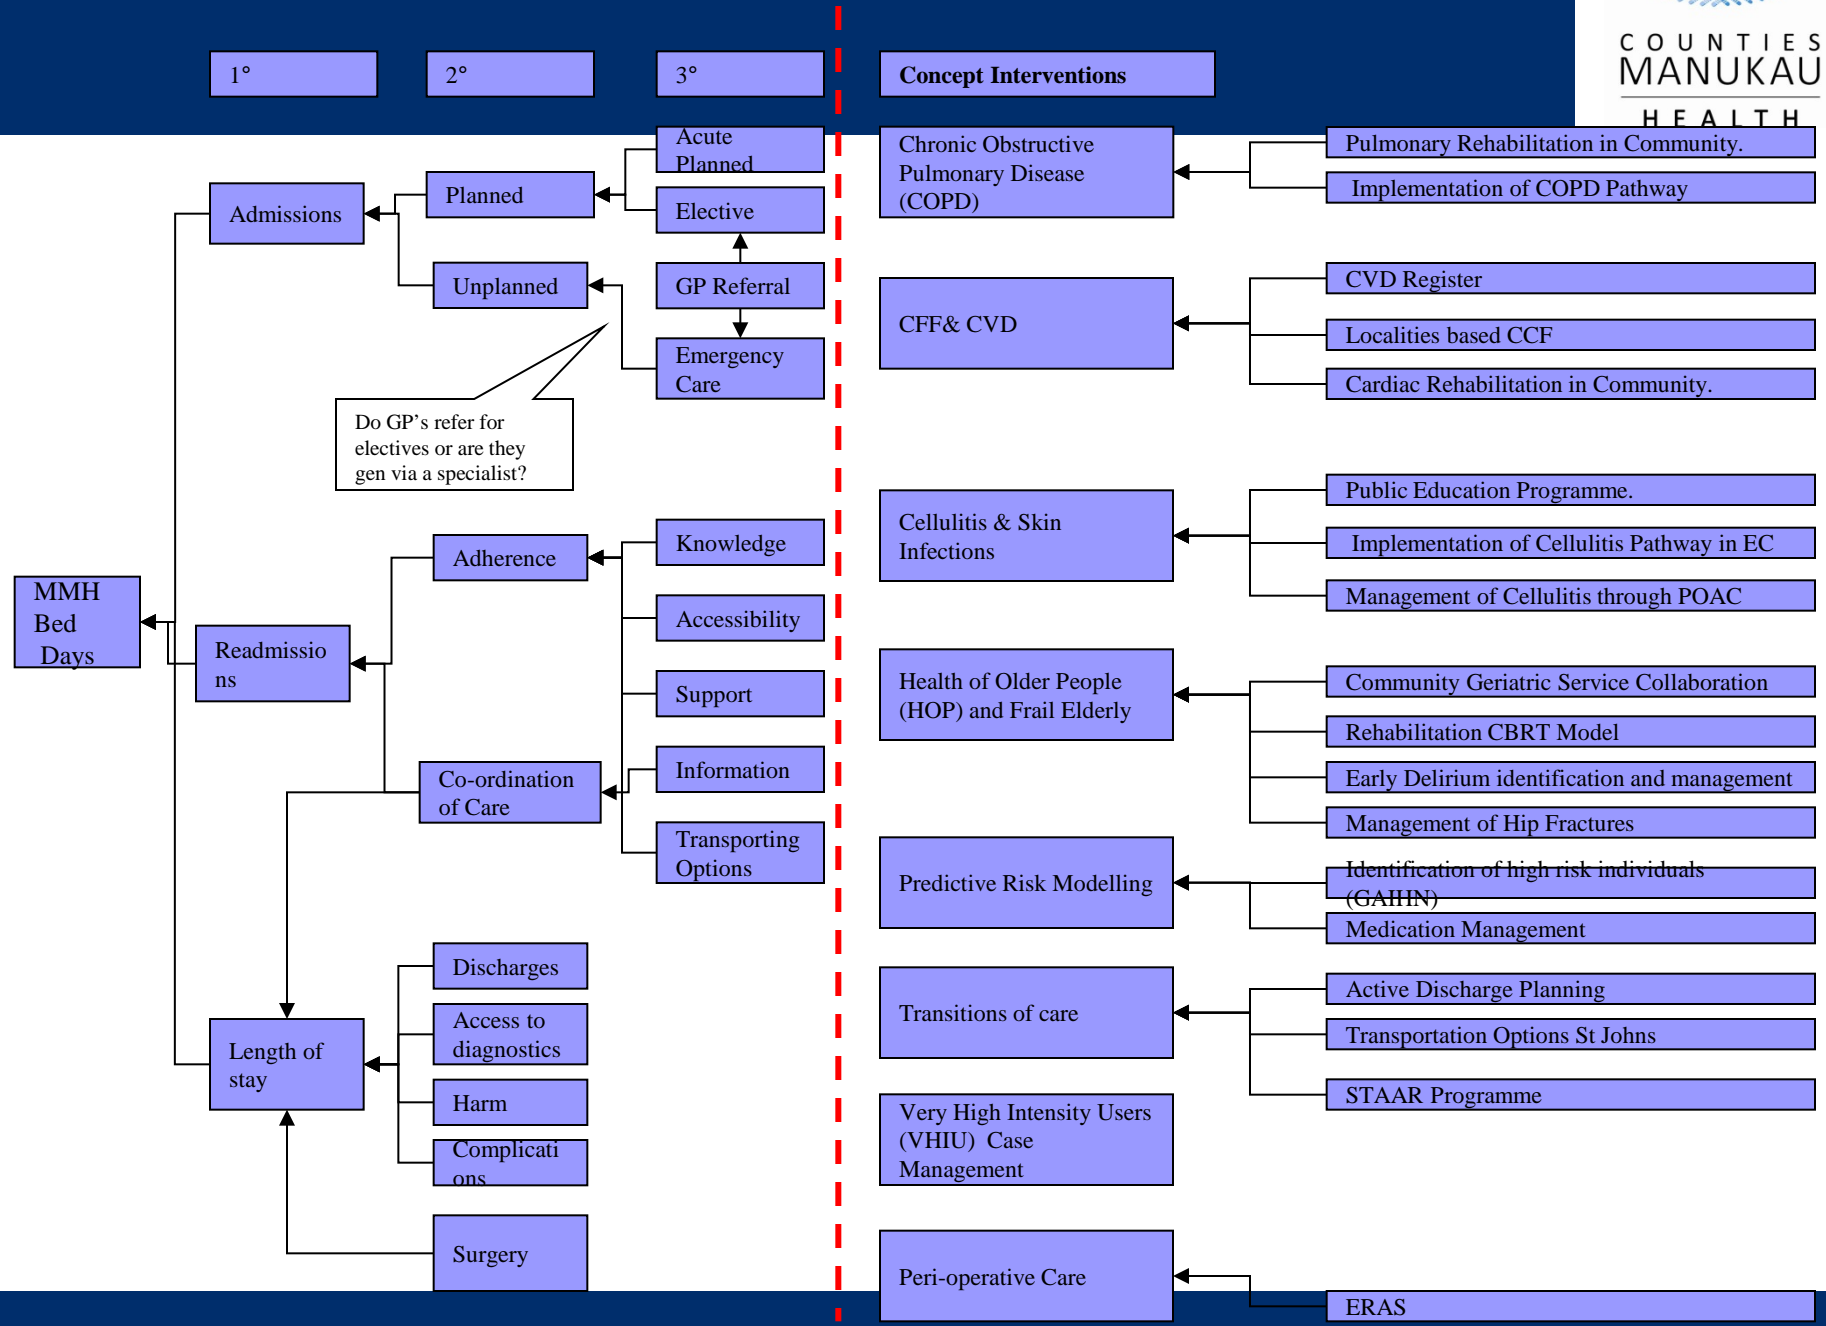

Lessons

- Allow for local adaptation
- Keep going back to the framework!

Tools

- Develop a Driver Diagram
- Develop a Project Charter

Driver Diagram – actors effecting bed days

Allows development of organic networks

Effective, horizontal pathways supported by the model

Lessons

- Share Learning at a local, Regional and National level
- National Clinical Lead working across and with regions
- Credible Clinical Lead

Allow development of organic networks

- Effective, horizontal pathways
 - Supported by the Model
 - Connected by the Model

Lesson

- Encourage cross regional collaboration

Reframes a social problem

- Owned by ICU
 - Personalised
 - Prevents harm to innocent people

Lessons

- National, Regional and Local Clinical Leads
- Clear roles and responsibilities
- Communication
- Call to action

- Using Measurement for Quality Improvement
 - Is there a problem?
 - How big is the problem?
 - Look how we solved the problem
 - Is the problem under control?

Opportunities

- Build on MFI
- Cross Sector
- Collaboration across Well Child Programmes

Lessons

- Adequate funding for training
- Executive and Clinical Engagement
- Time.....18 months
- Pre planning
- Creating will and engagement
- Ability to answer 3 critical questions
- Know what success looks like
