

Safe use of opioids national collaborative learning session two

Collaborative update

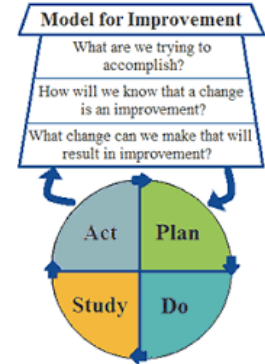

Carmela Petagna

Senior portfolio manager, Health Quality & Safety Commission

Share and learn from each other
and strengthen networks

Gain a deeper understanding of
quality improvement
methodologies and tools

Learn methods to accelerate
testing of changes and
improvements

**Learning
session 2
objectives**

Discuss and learn about
measurement, data collection and
reporting related to opioid safety

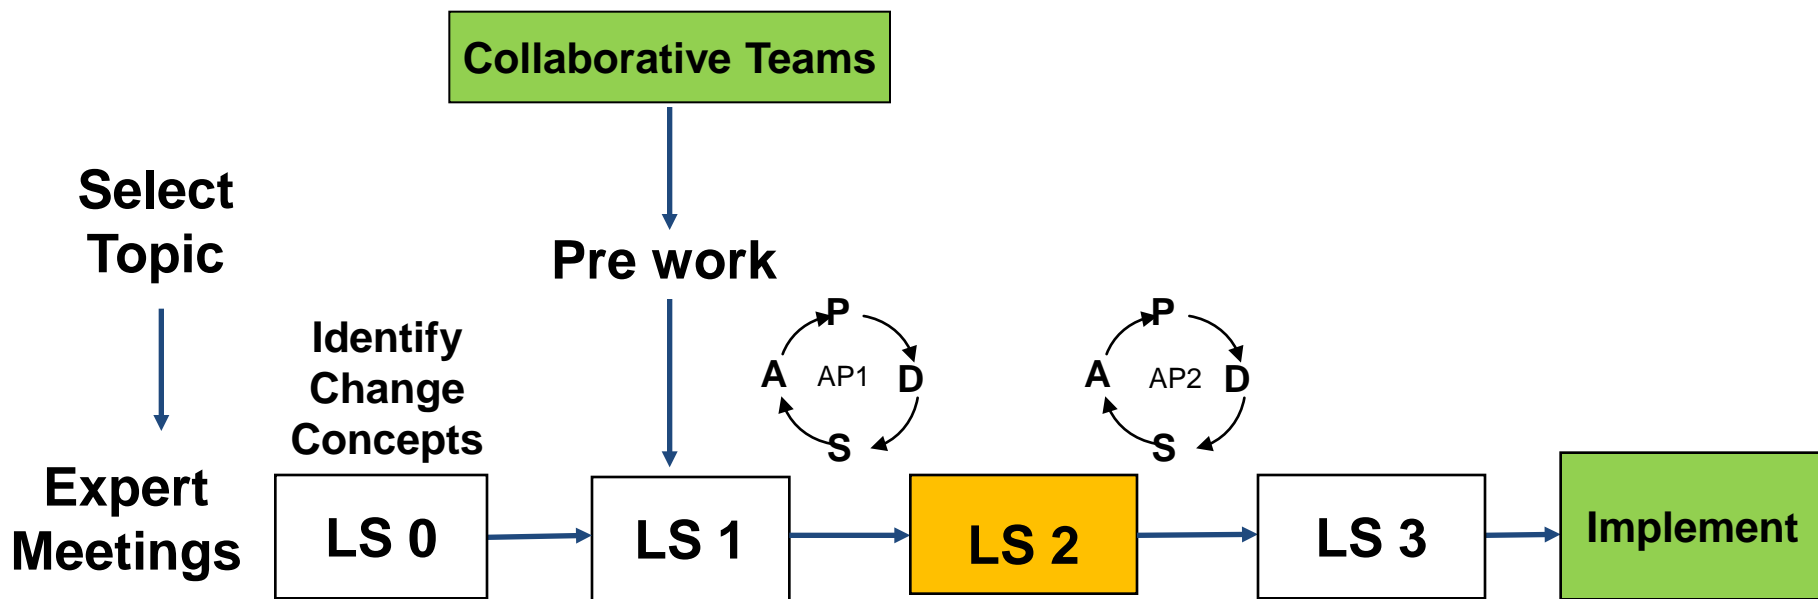

Develop change ideas to
reduce harm associated with
opioids and learn how to
apply them practically

Develop a strategy and a plan for
action period two

Collaborative methodology

LS – Learning Session

The Breakthrough Series: *IHIs Collaborative Model for Achieving Breakthrough Improvement*

Supports: emails/ visits/ reports/ sponsors/ meetings/ assessments/ conference calls

Collaborative aim

We aim to reduce the harm related to opioid use nationally by 25 percent in all the participating areas of district health board hospitals by April 2016.

Our achievements

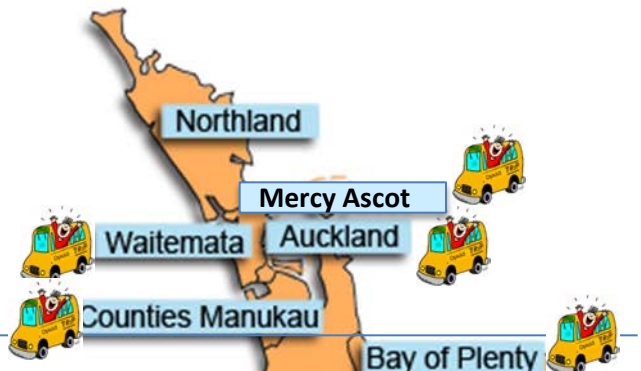

Key project outcomes

- Harms and pilot areas identified
- Aim statements and theories of change finalised
- Measures identified
- Data collection plan created
- Ongoing data collection
- Testing change ideas
- Patient stories captured

Support & communications

- Learning sessions
- Monthly teleconference
- DHB visits
- Newsletter
- Shared workspace
- Links with overseas teams

Northern

Midland

Central

Southern

15 visits

Purpose

- Measurement systems
- Theory and change ideas
- Quality improvement training
- Partnership and engagement
- Meet with wider team
- Understand the local environment

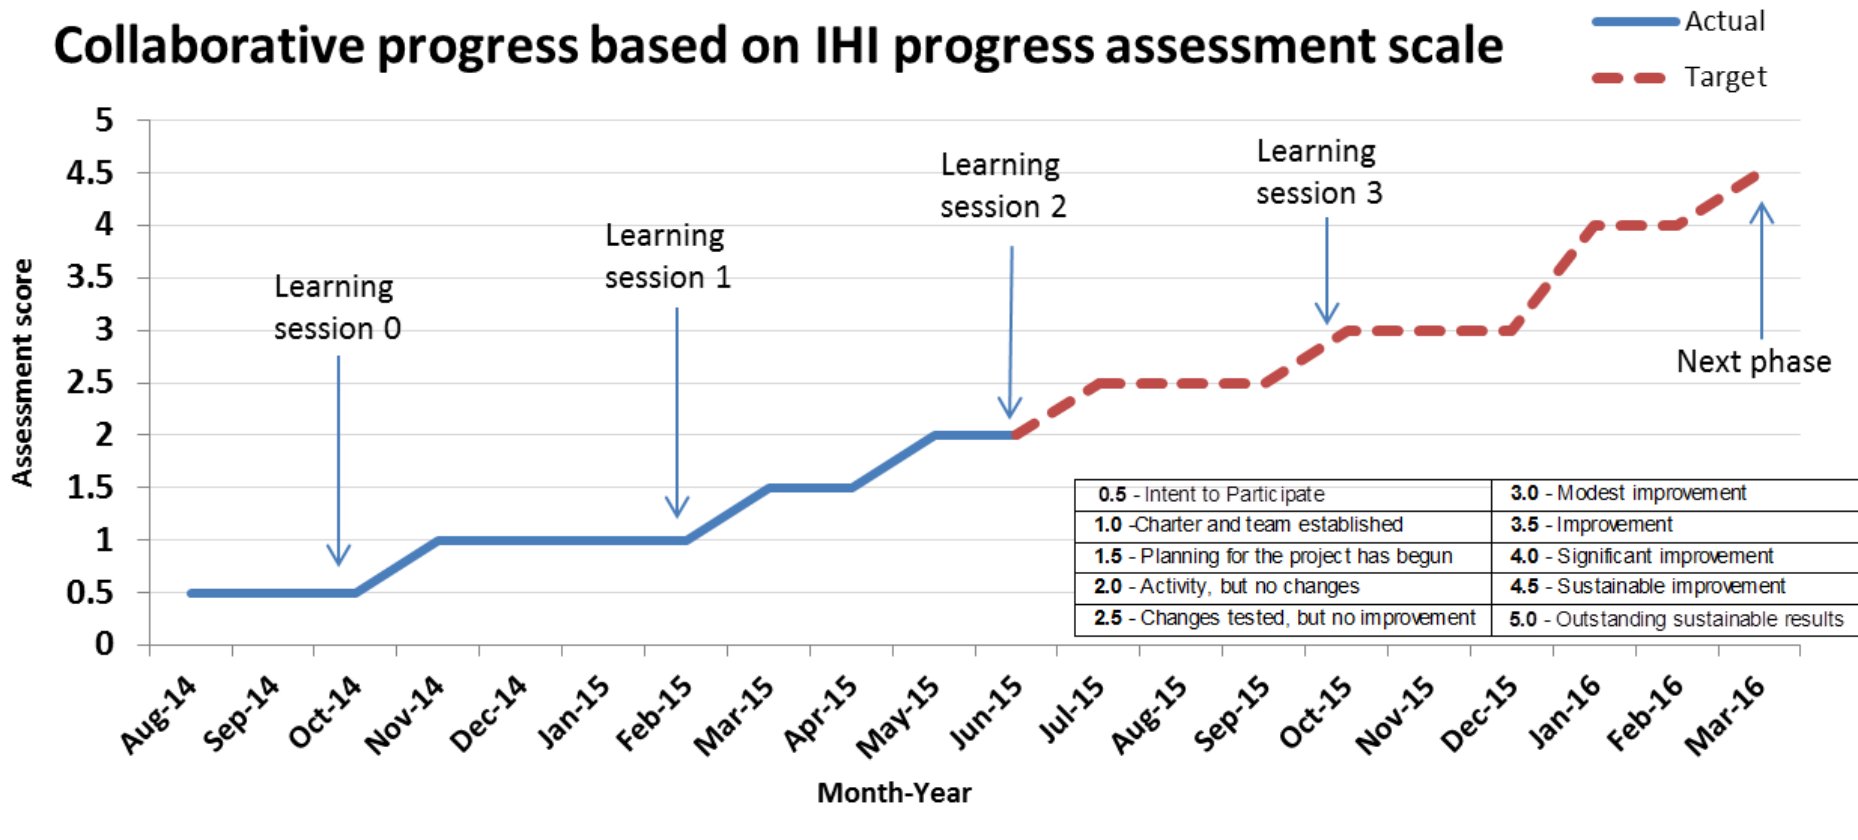

Collaborative support

- National collaborative team
- 4 regional learning sessions zero
- 3 national learning sessions
- Ongoing coaching & mentoring
- Improvement methodology
- Measure identification & analysis
- Meetings (conference calls/WebEx/video conference)
- Content specialists
- Strengthening regional leadership

Collaborative progress

Collaborative progress based on IHI progress assessment scale

Goals and priorities

- **Testing:** teams test their change ideas
- **Measurement:** ongoing data collection
- **Reporting:** on a regular basis
- **Engagement:** regional, national and local
- **Share & learn:** IHI WebEx, Learning session three, teleconferences
- **Capability building:** enhanced knowledge
