Collaborative Methodology

LS – Learning Session

The Breakthrough Series: *IHI's Collaborative Model for Achieving Breakthrough Improvement*

**Supports: emails/ visits/reports/sponsors/
meetings/assessments/conference calls**

Our goals and achievements

- Reducing opioid-related harm in pilot areas.

Nationally, we aim to reduce opioid related harm by 25% in all the participating areas of district health board hospitals by April 2016.

- An agreed national bundle of care for the safe use of opioids in hospitals.

Our goals and achievements

- Building capability in quality improvement
- Creating a reusable network/s
- Profiling high-risk medicines – as part of a long-term commitment to medication safety

Learning session focus

- Share, network, learn
- Develop further change ideas
- Discuss ideas for implementation and spread
- Develop a plan to sustain improvement
- How will we all stay connected?
