Health Quality & Safety Commission

TRIZ

"TRIZ" is the (Russian) acronym for the "Theory of Inventive Problem Solving." G.S. Altshuller and his colleagues in the former USSR developed the method between 1946 and 1985.

“Every act of creation is first an act of destruction.”

Pablo Picasso

Breakout

- “Make a list of all you can do to make sure that you achieve the worst result imaginable with respect to implementation and spread of bundle.
- “Go down the list created and ask yourselves, ‘Is there anything that we are currently doing that in any way, shape, or form resembles this item?’ Be brutally honest to make a second list of all your counterproductive activities/programs/procedures.”
- “Go through the items on your first and second list and decide what steps will help you stop what you know creates undesirable results?”
- Feedback to the session.
