he ara auheke**

Aotearoa New Zealand
patient experience survey

Patient experience survey

You may get an email or text inviting you to take part in a patient experience survey. Please help us understand what we did well and what we could do better by doing this survey. We want to know how you found your experiences with doctors, nurses and staff in the health care system.

The survey is voluntary and anonymous. You can complete it at home on a computer, tablet or smart phone. It takes about 15 minutes. We value your views.

Ngā mihi nui, thank you.
