

Anticoagulation stewardship programme

Te hōtaka whakahaere rongoā ārai poketoto

The stewardship programme reflects our commitment to Te Tiriti o Waitangi and consumer and whānau engagement. Using the elements below will make the use of anticoagulants safer.

Improve clinical processes and practices

- Standardise clinical tools, pathways and practice
- Use clinical risk assessment and decision-making tools
- Improve communication

Commit to local and national governance and leadership

- Align to existing clinical governance structure
- Secure leadership commitment

Improve knowledge and skills for consumers, whānau and clinicians

- Implement a person-centred education approach for consumers and whānau
- Provide the workforce with relevant education

Monitor and report on measures

- Collect, analyse and share data routinely to support continuous quality improvement
