

# Team Tamariki

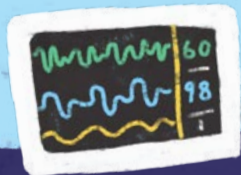

## Paediatric Early Warning System (PEWS)

Things go better when we work together

### Health team

We regularly check and score vital signs that tell us how your tamariki is doing

### Whānau & family

You know your tamariki best so please tell us if you spot any change. To find out more about PEWS ask your nurse

### Action needed

Changes in the PEWS score tells us what action we need to take or what extra support your tamariki needs
