

Start-of-List Briefing

Ensure all team members are present and have introduced themselves

Review all patients on the list:

- Patient name
- Planned procedure
- Estimated duration

Surgical Plan:

- Key points and any specific requirements not already identified
- Blood loss risk
- Potential difficulties and contingency plans
- Confirm specific equipment requirements

Anaesthetic Plan:

- Type of anaesthetic
- Difficult airway or aspiration risk
- Any issues or concerns

*Ask the team if they
have any questions or
concerns*
