From Safety I to Safety II – building resilience in healthcare in New Zealand

Masterclass with Professor Erik Hollnagel

Tuesday, 1 August 2017
10.00am - 3.30pm
Ko Awatea Lecture Theatre, Ko Awatea Centre, Building No. 54, Middlemore Hospital, 100 Hospital Road, Otahuhu, Auckland

Brief overview

Professor Erik Hollnagel is an internationally recognised specialist in the fields of resilience engineering, system safety, human reliability analysis, cognitive systems engineering, and intelligent man-machine systems. He is the author of more than 500 publications including 22 books, journal articles, conference papers and reports. Subjects include nuclear power generation, aerospace and aviation, software engineering, land-based traffic and healthcare.

In this masterclass Erik will present on a modern view of safety, Safety II and resilience engineering, and building resilience in healthcare. There will be group discussions in response to Erik's keynote sessions, as well as rapid fire presentations on Safety II in New Zealand practice and the management of safety and performance in non-healthcare settings.

Facilitator

Erik Hollnagel  Ph.D.,
Professor, Professor Emeritus

Erik Hollnagel is professor at the University of Southern Denmark and chief consultant at the Centre for Quality Improvement, region of Southern Denmark. Erik is also adjunct professor at Central Queensland University (Australia), visiting professorial fellow, Faculty of Medicine and Health Sciences at Macquarie University (Australia), visiting fellow of the Institute for Advanced Study of the Technische Universität München (Germany), and Professor Emeritus at the Department of Computer and Information Science (IDA) at Linköping University (LIU), Sweden.
