CHOOSING WISELY NEW ZEALAND NATIONAL SYMPOSIUM

TE PAPA, WELLINGTON, THURSDAY 30 MARCH, 9:30AM–5PM

Featuring keynote speaker Professor Wendy Levinson, chair, Choosing Wisely Canada, and Officer of the Order of Canada.

Choosing Wisely focuses on areas where evidence shows that a test, treatment or procedure provides little or no benefit to a patient and could even cause harm.

A recent survey of New Zealand doctors found half of all respondents thought the provision of unnecessary tests, procedures or treatments was a serious or somewhat serious issue.

The Choosing Wisely campaign launched in New Zealand in December 2016. It is being facilitated by the Council of Medical Colleges in partnership with the Health Quality & Safety Commission and Consumer NZ.

The symposium is for health professionals, consumer advocates and others already involved in Choosing Wisely, or those who would like to know more.

To book, visit www.choosingwisely.org.nz.
